

WE ARE THE LINE

THROUGH THE CRACK

1st EP - Available on October 22nd, 2017

A COLD PLACE (Single)

Available 09/20/2017

Many personalities hide themselves behind We Are The Line, trying to express amount of ideas, desires, sounds. They simply claim to be an engine, a need to make us all feel parts of their lives which everybody can identify with. W.A.T.L. is a sum of suffering and hopes, living and observing a society where decline and progress can be confused, too easily inverted.

From it results a schizophrenic dimension in which everyone questions, criticizes or takes advantage of a system, a world they will define, build or destroy throughout different opus, ways of expression.

The EP Through The Crack is an introduction, the first entrance in this world, a first part. It deals with choices, positions, their consequences. It could be all about ambiguities, false pretenses, believing that looks can be deceiving. All we imagine, trust in can simply have influence on this world, our lives.

W.A.T.L. draws its musical and visual inspiration at diverse artists whom they consider as masters. Make feel and think is the leitmotiv common to all the figures which marked them : **Depeche Mode, Nine Inch Nails, David Bowie, David Lynch...**
